WORTH
WHILE

We Can Make Your Shaving Easier

Shaving in the modern way—with modern utensils—is a real pleasure rather than a nuisance.

However, even some of the latest shaving devices are not a big improvement over the old. But we are in position to know which are the most worthy, as we have had an opportunity to investigate them all.

We tender you a most hearty invitation to inspect our worthy assortment of razors—strops—hones—blades—brushes—soaps in all forms—soothing ointments—etc.

HOLD THE BATTLE LINE IN FRANCE

Feed the American Army—Save the Wheat Flour

THE PATRIOTIC PLEDGE

Ky., 1918.

I have a family of _____ persons living at my home. I have on hand _____ pounds of wheat flour. I agree that in my home we will not use more than six pounds of wheat products in thirty days for each person, including flour, crackers, Victory bread, macaroni, etc., until the next harvest comes in August. I agree to hold at my home all wheat flour which I have on hand over a thirty days' supply for my family on the ration of six pounds per month per person, and to dispose of such surplus as the United States Food Administration may direct in the interest of National Safety. If my surplus flour is given to the Government, I am to be paid what it cost me.

I make and sign this pledge as an American citizen to aid in the winning of the war.

P. O. Address _____

Out out the above pledge. Fill in the blanks. Sign your name and address and mail to your County Food Administrator at once.

Wheat! Wheat! Wheat!!! This is the great national necessity at the present time. It is needed for the immense armies we are sending abroad at the present time. It is needed for the Allied armies who are so gloriously holding the Battle Line in Western Europe until the Americans can get "on the job" and drive the German Hordes back across the Rhine.

It is wheat flour that is so badly needed for bread stuffs over there. It is wheat flour that the American Government must have and our American Patriots at home must provide it by savings in the homes. There is no other source of supply until the next harvest. Thus duty calls us to our part in the war.

Knowing that all loyal citizens are glad and willing to conform their households to the six pound ration until the new harvest, but knowing also that we have some among us who are disloyal and pro-German and perhaps not averse to seeing sacrificed the splendid brave youth of the nation who are going from our homes to fight for our freedom, the Government is protecting our loyal citizens against those disloyal in meeting this call for the saving of wheat flour. There is on the Statute Books a law against hoarding under which those who hold an unreasonable amount of flour are being prosecuted by the Department of Justice in the Federal Courts. The penalty for convicted hoarders is a fine not to exceed \$5,000, and imprisonment not to exceed two years, or both.

The Food Administration has determined the amount of wheat that is available from now until harvest for the American people. It has determined that a reasonable use must not exceed six pounds per month per person and has stated that it is unreasonable in this emergency to have on hand more than a thirty days' supply on this ration for our householders.

Any person who has on hand more than this amount is liable to prosecution as a hoarder of flour under the law on orders from the Food Administration. The procedure is by indictment in the Federal Court.

Recognizing, however, that many patriotic persons, following practices formerly considered legitimate and usual, have laid in larger quantities of flour than in this time of National Emergency is considered reasonable and right, and that many of these persons acted in so doing from proper motives, the Food Administration in the interest of fairness and justice, now offers to those citizens who have thus acted in good faith, the opportunity of showing their patriotism and insuring themselves against the notoriety and penalties that would result from prosecution.

No person in Kentucky, therefore, who makes and files with their County Food Administrator the statement disclosed in the Pledge at the head of this article and holds his surplus flour for the Government, agreeing to turn it over if it is needed, will be prosecuted by the Government for hoarding flour.

The Food Administration will not call for your surplus unless it is necessary, and when it does call will leave you your thirty days' supply, but it must know where the flour is and it must have your promise to turn it over as a measure of National Safety.

In some Kentucky counties, owing to shortage of supply, it has already been found necessary to direct that excess holdings be marketed, but it is only in cases of emergency that such action is contemplated.

When this call comes to you think of the needs of our soldiers, the brave boys who fight our battle for freedom, for the safety of our homes from the menace of the Hun. Don't let anyone say you are a slacker because you have not offered your surplus to the Government in time of need. Every pound of flour now counts in this time of trouble. Remember also that the influence of your offer on other citizens not so patriotically inclined, may save the lives of many brave boys from your own home town. Make your sacrifice for them and inscribe your name in this pledge on your Country's Roll of Honor!

FRED M. SACKETT,

Federal Food Administrator for Kentucky.

May 17th, 1918.

Canada Reduces Wheat Consumption.

Home consumption of wheat in Canada is now being reduced about 50 per cent to make possible an increase in wheat exports.

Saves Food

Be More Efficient Than the Enemy.

"The only way to win the war," Progressive Farmer believes, "is for us to be more efficient than the enemy. If the Hun soldier is efficient, ours must be made more efficient. . . . If the German farmer is efficient in feeding and clothing the German army, the American farmer must prove himself more efficient."

Saves Food

U. S. Government Output Doubled.

A canvass of the whole country by the Food Administration shows that the actual milling output of commercial mills increased from 3,000,000 barrels in October to nearly 6,000,000 barrels in March. During the past 18 months, the output of corn flour has increased 500 per cent.

Saves Food

No Sacrifice, Just a Change.

The program of food conservation in the United States leads Missouri Herald-Examiner to say: "We Americans have not yet been asked for any real sacrifice. Our meatless day and wheatless meals are merely a matter of changing the habit, substituting one food for another and are nothing compared with the nations imposed on the English people and the voluntary rationing asked of the Canadians."

Says the Idaho Farmer: "The bread ration of the allied soldiers now facing the fearful onslaughts of German guns and gas has been reduced. Why? Because they haven't enough to go around. They haven't enough wheat to make their war bread out of. What are we going to do about it?"

Saves Food

"It is the War."

In France fifty per cent of the total energy of the people is said to go into military effort. Hardships, hunger, sorrow—all suffering is excused with the explanation, "It is the war." This is the kind of spirit needed in every American home.

Saves Food

Put Every Acre to Work.

In an editorial reviewing handicaps and hardships of the past, Michigan Business Farming has this to say about the future: "The time for finding fault with things, which for reasons perhaps more cogent than we can realize can not be changed for the time being at least, has passed. Now that the planting season is near and the farmer must soon decide upon his acreage, let us have done with fruitless complaining, put our hands to the plow and go OVER part in winning the war. . . . Never let it be said that a soldier suffering hunger or that a child in far-off Belgium died from starvation because you failed to do your part in growing the wheat or food which might have nourished him."

A LOAN PLAN TO FIT THE INDIVIDUAL FARMER

Farming is no longer a haphazard undertaking. It is a BUSINESS, and like other business enterprises, IT TAKES MONEY FOR ITS PROPER OPERATION. It takes money to make money.

Frank A. Vanderlip, President of the National City Bank, of New York, said on one occasion in an address at Washington: "We must borrow in advance of our savings and liquidate as we save. This applies to all, millionaire and employee alike."

This is exactly the FARMER'S SITUATION.

This is the amortization plan. The farmer gets his money in bulk and pays it back out of his savings.

Until recently our FINANCIAL SYSTEM took NO account of the FARMER. Everybody else could borrow money on terms to suit their particular business.

The returns from the farm were slow in accumulating and to borrow large sums meant hardships and sometimes loss of the farm at the loan's maturity. NOW ALL HAS CHANGED.

THE FARMER MAY GET HIS MONEY TO SUIT HIS INDIVIDUAL REQUIREMENTS. The short term loan is no longer the only measuring rod for his credit. NOW THE FARMER'S LOAN IS MADE TO ORDER.

A great crisis in our country gave us Washington, Lincoln and Woodrow Wilson. A GREAT CRISIS IN OUR FINANCIAL SYSTEM HAS GIVEN THE FARMER THE AMORTIZATION LOAN.

Under this plan, by meeting his small payments each year, and anticipating future installments in good years THE FARMER IS SAVED FROM HARD TIMES and SHORT CROPS and GUARANTEED against FORECLOSURE and MONEY SHARKS. Under these conditions, the man who HESITATES to get money for his farming operations, loses his opportunity to make a WONDERFUL and OFTEN Dreamed of success. Only Providence can stop THE FARMER WITH MONEY on his road to prosperity, and that is not probable, for with EVERY ACRE UTILIZED a failure in one or two crops would not change the total result.

DON'T HESITATE TO BORROW MONEY.

PREPARE NOW NOT ONLY for 1918 BUT FOR 1919. MONEY IS CHEAP NOW, but it may get high tomorrow. WHO CAN TELL? Other things used to be cheap. MONEY is a COMMODITY, and like other commodities is SUBJECT to the law of supply and demand.

The enormous sums required for war purposes not only here but for the allied nations as well, must come from the SURPLUS MONEY in our OWN COUNTRY.

The United States Government is borrowing \$7,000,000,000 from the people at one time. Many billions more will follow.

Our first duty is to our country. Our government must be financed and the people should and will do it.

NOBODY KNOWS what TOMORROW may BRING FORTH. TODAY is the only day we can promise. financial concern is making promises for any other day than TODAY.

BIG OPPORTUNITIES come seldom and then only THOSE WHO HAVE THE NERVE TO ACT.

We would like to talk to farmers who want to their earning capacity.

Drop us a line, call and see us, or telephone No.
